I submitted the attached article ("An Analogy Between Nazi Germany and the United States") to Perspectives on History. It was rejected, but the editors or editor did not handle the matter in an reasonable manner, as you can see from the attached pdf file.

What the American Historical Association should do is give the article to the American Journal of Physics or Yvette Clarke (D-NY) and wait for their comments. Ms. Clarke is my congressman, and I have communicated with her about this scandal. I posted the article on my website at:

Dear Dr. Shapiro,

My congressman (Yvette Clarke, D-NY, 9th District) is investigating my allegation that the American Journal of Physics is perpetrating a hoax about evolution by publishing a paper with a fake calculation proving that evolution does not violate the second law of thermodynamics. My correspondence with the U.S. House of Representatives is here:

<http://newevangelist.me/2013/04/12/national-science-foundation/>

This hoax is part of the scam about the theory of intelligent design which is perpetrated by both advocates of ID and most of those against ID. Your colleague, Jerry Coyne, helps perpetrate the scam by never admitting publicly that Darwinism only explains adaptation. I explain why I think ID is a scam in this short podcast, which mentions your ideas.
