6/22/16 got response and emailed Delany letter with cc to Ed
A few days ago, I had a telephone conversation with the President of Rocky Mountain Creationism, Ed Boudreaux. I asked him to help me in my campaign to get the American Journal of Physics to retract an absurd article titled "Evolution and thermodynamics" which explicitly criticizes a creationist. I sent this email to a number of people.

Unfortunately, I can't find where I got the idea the Congressman of Maryland contacted my congressman:
