I am a member of the IEEE (No. 93091561) and am working on way of explaining quantum mechanics. I think I have some ideas about the interpretation of quantum mechanics that are a contribution to the science.

I got a Ph.D. in quantum electrodynamics in 1971 and have not thought about quantum mechanics for this amount of time and could use a collaborator. I wrote a review of a book titled "Quantum Enigma: Physics Encounters Consciousness" and put it on Amazon.com. I want to rewrite it and am wondering if you could suggest a publication to submit the article to.

Dear David,

I will look at this correspondence, but I am not clear about why you are sending it to me. I am not one of the editors. Can you let me know?
