Dear Fr. Izzo,

A peer-reviewed article, that I have attached, has recently been published that refutes the AJP article. I must admit that the author of this article, Granville Sewell, is not supporting my campaign to get the AJP to retract the article. I can't understand why. The article should be retracted because it exacerbates the conflict about the teaching of evolution in schools and undermines the integrity of science. Any layman can understand why the AJP article is absurd.

Both sides in the conflict about the theory of intelligent design are wrong as I explain in my podcast at <http://www.buzzsprout.com/16337/143091-the-intelligent-design-scam>. There is an ugly incident that occurred at the Smithsonian Institute that was condemned by a congressional report: "Demotion and Harassment of Scientist Skeptical of Darwinian Evolution" (December 2006). The scientific establishment in the United States is atheistic, but the House of Representatives is not. I think I can get the AJP to retract the article. This will prove that all the Jesuits and Dominicans who support the article will be revealed as being more loyal to the scientific establishment than to Jesus.
Very truly yours, David Roemer

Dear Bob,
I'll be very happy to remove your name and all of your correspondence from <http://www.pseudoscience123.com> if you do one thing for me. Fr. Austriaco told me that he did not have time to investigate my allegations against Steven Barr for telling me I was wrong about the AJP article. I met with Fr. Mulcahy in his office in New York and explained to him why Fr. Austriaco was lying about this matter. Fr. Mulcahy told me he would ask Fr. Austriaco about my allegations. Do you know what transpired between the two old friends? Can you find out? If not, why not?
Very truly yours, David,

As I stated in a previous email, I am retired. My interests are now flying and shooting. Physics is no longer something I participate in.

Bob

Dear Robert,

This is wonderful news. I also got an email of support from V. V. Raman (vvrsp@rit.edu) who is a professor at Rochester Institute of Technology and who writes about science and religion. This was my answer to him. I mentioned Troy because I mistakenly thought Troy was near Rochester.

Dear Dr. Raman,

I have three ideas about what you could do to be of service to all involved:

1) I submitted "An Analogy Between Nazi Germany and the United States" to The Historian on 12/7/15. The Editorial Assistant is David Beeler and the Editor is Kees Boterbloem (kleiohistorian@gmail.com). You might contact them and offer your services as an expert in science. The editors of Theology and Science and Perspectives on History did not deal with my submission in a reasonable manner.

2) The National Science Foundation is responsible for the integrity of science in the United States. (The American Association for the Advancement of Science actually has this as one of its missions.) I contacted the NSF and was ignored. The Subcommittee on Research and Technology oversees the NSF. My congressman is Yvette Clarke (D-NY, 9th district) and I gave her the documentation that proves the AJP article undermines the integrity of science in the United States. I have been unable to find out what has happened to this documentation. You could ask your congressman to ask Yvette Clarke what she did with the incriminating evidence which is at <http://www.pseudoscience123.com/national-science/congress.html>.

3) The Congressman for Troy, New York, is Paul Tonko. I sent him four faxes of the letter I sent the president of the

American Association for the Advancement of Science (Rush Holt, former congressman from New Jersey)See: <http://www.pseudoscience123.com/resources/paul-tonko.pdf> and <http://www.pseudoscience123.com/advancement-science/aaas.html>. If you live in Troy, he has a duty to represent your interests with the federal government.

I also submitted a paper to the European Society for the Study of Science and Religion. It was rejected and my email back to them is at <http://www.pseudoscience123.com>.

David,

You are becoming scary. Please do not come to my campus. I keep a 32 revolver in my desk to protect me from people like you. Please have no doubts about me using it on you.

Please take me off your mailing list and never contact me again.

I hope you have a happy Christmas –

Sincerely, Bob
