The idea that the Shroud is authentic is pseudoscience and misrepresents our salvation history. This is why the IEEE has withdrawn its sponsorship of the Shroud conference in Bari Italy. No one questions the integrity of the IEEE. This organization is committed to truth in science and history. My ethics complaint against Bruno Barberis and Bishop Sheridan is still pending. I gave Bishop Sheridan the entire notarized ethics complaint that is pending. Did he forward this information to you? If not, why not?

The Holy Shroud is an important relic and Shroudies are causing knowledge of the Shroud to be suppressed. No one in the New York area, for example, has seen my slideshow/lecture, thanks to Cardinal Dolan.

The same thing is happening in the Harrisburg Diocese. There is going to be a conference about the Shroud given by Dr. Jackson. However, the diocese is not promoting this important event. It is not on the official calendar of the diocese. It is only being mentioned on the websites of two parishes. There is no story about it in the diocesan newspaper. There is only an advertisement by the Knights of Columbus. I'll be pursuing my complaint against Bishop Sheridan, Bishop Gainer (Harrisburg), and Cardinal Dolan with the Vatican.

I explain why a small number of fanatical Catholics think the Shroud is authentic here:
<http://ezinearticles.com/?Cognitive-Dissonance-and-the-Shroud-of-Turin&id=8716559>

My correspondence with the Vatican about this matter so far is here:
<http://newevangelist.me/2012/10/02/the-truth-about-the-shroud-of-turin/>

I am sure that you and other laymen who think the Shroud is authentic are sincere. It is an expression of your faith. I'm not so sure about the like of bishops and cardinals. If Bishop Gainer and Cardinal Dolan were sincere, they would respond to my request for an appointment. The priests and bishops in Harrisburg are behaving like a bunch of scared children.

Dear Dr. Jackson,

I just published a website titled "Canonical Complaint Against Cardinal Timothy Dolan" (<http://www.dkroemer.com>).
The complaint is that he is practicing pseudoscience in violation of Canon 279, section 1, by promoting the authenticity of the Holy Shroud.

If you want to be kept informed of new developments, let me know.

on 8/28/14, long conversation about Shroud. sent email asking her to reconsider. She and her husband have a ministry.

I'd appreciate your reconsidering your decision not to let me give a talk at the conference. I don't think your ministry is any different from the ministry of the pastor in New York City who cancelled my slideshow/lecture (<http://www.holyshroud.info>) at the last minute. The conflict between you and me is the same as the conflict I am having with Cardinal Dolan who accused me of "debunking" this important relic.

I just sent a letter to Cardinal Dolan telling him that I would file a canonical complaint against him with the Holy Father if our disagreement about the Shroud could not be resolved. My correspondence with the Archdiocese of New York is at

<http://newevangelist.me/2012/10/02/the-truth-about-the-shroud-of-turin/>

I am a member of the Institute for Electrical and Electronic Engineers which is hosting a conference in Italy about the Shroud of Turin. I submitted the following paper to this conference:

<https://shroudofturin.files.wordpress.com/2014/07/roemer.pdf>

It was rejected by Bruno Barberis, who is an advisor to the Papal Custodian of the Shroud, for reasons that were so absurd I filed an ethics complaint against the conference chairmen with the Ethics and Members Conduct Committee of the IEEE. If the IEEE rules against Dr. Barberis it will in effect be a ruling against Cardinal Dolan.

I'd like to repeat my offer to go to Hanover before the conference and explain to you and your husband why the theory that the Shroud was created by Gnostics in the first or second century using a crucified victim and methods that have been lost to history is more spiritually inspiring than the idea that the Shroud is authentic.
